

ADOPT-A-STREAM MONITORING EQUIPMENT BUILDING INSTRUCTIONS BENTHIC MACROINVERTEBRATE SAMPLING

KICK SCREEN

Use to collect stream invertebrates.

Materials:

2 1" diameter doweling	Each 4 ft.
nylon or fiberglass window screen	32" x 4'
staple gun and staples	

Building Instructions:

1. Roll one 32" side of the screen around a doweling and staple it so that the screen is even with the edge of the doweling.
2. Repeat for the other side of the screen.
